18 March 2010

Medvet Laboratories achieves accreditation for oral fluid drug testing Australian Standard AS 4760:2006.

Medvet Laboratories is pleased to announce our latest achievement in oral fluid drug testing. In January 2010 Medvet Laboratories was assessed by the National Association of Testing Authorities (NATA) for the oral fluid drug testing Australian Standard AS 4760:2006.

On March 11th 2010, Medvet Laboratories was awarded full compliance with Section 2 of AS 4760:2006. This includes: collection, storage, handling and dispatch of oral fluid samples to the laboratory.

This means you can be assured that when your staff provide an oral fluid sample to an authorised Medvet Laboratories Collector; their privacy, confidentiality, and the chain of custody of the sample are maintained to the nationally prescribed standard.

The accreditation shows Medvet Laboratories continues to be at the forefront of drug testing in Australia. Medvet Laboratories is the most highly accredited drug testing company in the country; boasting full AS/NZS 4308:2008 urine accreditation and Section 2 AS 4760:2006 oral fluid accreditation.

For a more detailed discussion on how Medvet can help you with drug and alcohol testing services, please contact Medvet Laboratories on 1800 633 838.

Kind regards,
